SKILLS

Web Development:

Front-End

- HTML5, CSS3
- Responsive Design Principles
- JavaScript (ES6+)

Frameworks/Libraries:

- Bootstrap, Tailwind CSS
- React.js, Redux

Back-End Development:

- Node.js, Express.js
- MongoDB (Database Management)

Version Control:

- Git, GitHub

Debugging and Development Tools:

- Chrome DevTools
- Visual Studio Code (VS Code)

Web Performance Optimization:

- Image optimization, minification, and lazy loading techniques
- Reducing load times and optimizing assets for improved UX

PROFESSIONAL SUMMARY

I'm a dedicated and an enthusiastic beginner web developer with a intermediate foundation in the MERN Stack. Passionate about learning, problem-solving, and building practical web applications, I've completed several academic projects and coursework that demonstrate my technical and collaborative abilities. I'm eager to contribute to a dynamic development team, take ownership of meaningful tasks, and continuously improve my skills in real-world environments. I thrive in fast-paced settings, communicate clearly, and adapt quickly to new technologies. Open to internships, freelance roles, and remote opportunities, I aim to grow as a developer, engage with the global tech community, and create impactful digital solutions through technology and entrepreneurship.

WORK EXPERIENCE

Front-End Developer

Anees Software House

08-2022 to 06-2023

- Developed simple and responsive websites using HTML, CSS, and JavaScript.
- Worked with React.js to create interactive and dynamic web pages.
- Ensured websites were visually appealing and functioned well on different devices.
- Applied various techniques to enhance website speed and performance.
- Implemented basic UI/UX design principles to improve user experience.
- Handled user input forms and validated data for better security.
- Utilized CSS frameworks like Tailwind CSS and Bootstrap for efficient styling.

Back-End Developer

Self Learner

Present from 2024

- Understanding how servers and databases work using Node.js, Express.js, and MongoDB.
- Practicing how to store and manage data in web applications.
- Learning to create APIs that help websites send and receive data.
- Exploring how front-end and back-end systems connect with each other.
- Working on small projects to improve problem-solving and technical skills.
- Learning about authentication and user management using JWT (JSON Web Tokens).
- Understanding how to secure and protect backend data using best practices.

WORK & PRODUCTIVITY

- Mentorship
- Adaptability
- Documentation
- Project Management
- Public Relations
- Teamwork & Collaboration
- Attention to Detail
- Time Management
- Effective Communication
- Operating and IT Tools
- Version Control Systems
- Analytical & Problem-Solving Skills

LANGUAGE

- English (Fluent)
- Urdu (Fluent)
- Pashto (Native)

REFERENCE

- Will be furnished on request

PROJECTS

College Management System (CMS - Web Application)

Designed and developed a full-stack College Management System for intermediate-level (1st Year & 2nd Year) institutions using the MERN Stack. The system streamlines academic and administrative operations with modules for user authentication, role-based access (admin, teachers, students, parents), assignments, attendance, fee management, exams, results, and dynamic reporting. Implemented secure JWT authentication, responsive UI with Tailwind CSS, and optimized MongoDB queries for scalability.

Online Garments Store (Web application)

Online Garments Store is a full-stack web application built using HTML, CSS, JavaScript, Node.js, Express.js, and SQL. It features a user-friendly interface for customers and a separate admin panel for managing products, users, and orders. The system supports user authentication, dynamic routing, shopping cart, and order tracking with full backend and database integration.

React Portfolio Website

Designed and developed a modern, responsive portfolio using React.js and Tailwind CSS to showcase projects, skills, and achievements. Integrated smooth navigation, reusable components, and clean UI/UX principles to highlight personal branding and development expertise.

EDUCATION

University of Malakand (UOM)

- Bachelor of Science in Computer Science
- Duration: September 2021 – September 2025
- Grade: 3.49 CGPA

Government Postgraduate College Timergara

- Intermediate in Pre-Engineering (XII)
- Duration: September 2019 – July 2021
- Grade: 73%

Government High School (TKS)

- Matric in Science
- Duration: Apr 2016 – Apr 2018
- Grade: 80%
