## ⚙ Skills

**Web Development:**

**Front-End**

- HTML5, CSS3
- Responsive Design Principles
- JavaScript (ES6+)

**Frameworks/Libraries:**

- Bootstrap, Tailwind CSS
- React.js, Redux

**Back-End Development:**

- Node.js, Express.js
- MongoDB (Database Management)

**Version Control:**

- Git, GitHub

**Debugging and Development Tools:**

- Chrome DevTools
- Visual Studio Code (VS Code)

**Web Performance Optimization:**

- Image optimization, minification, and lazy loading techniques
- Reducing load times and optimizing assets for improved UX

## 👤 Professional Summary

I'm a dedicated & enthusiastic beginner-level programmer with a passion for learning & problem-solving. I have basic skills in web development & understand important programming concepts like variables, loops, functions, & data structures. I specialize in the MERN Stack & have successfully completed basic coding projects & coursework. I have good analytical skills & pay close attention to details. I'm eager to apply my knowledge & skills to contribute effectively to a development team while continuing to improve in web development. I work well in a team, communicate clearly, & can adjust to fast-paced environments. I can solve simple problems, take responsibility for my tasks, & I'm always eager to learn new things and improve. I'm looking for an opportunity to apply my skills, gain experience, & grow in a professional environment.

## 💼 Work Experience

### FRONT-END DEVELOPER

**Anees Software House**          **08-2022 to 06-2023**

- Developed simple and responsive websites using HTML, CSS, and JavaScript.
- Worked with React.js to create interactive and dynamic web pages.
- Ensured websites were visually appealing and functioned well on different devices.
- Applied various techniques to enhance website speed and performance.
- Implemented basic UI/UX design principles to improve user experience.
- Handled user input forms and validated data for better security.
- Utilized CSS frameworks like Tailwind CSS and Bootstrap for efficient styling.

### BACK-END DEVELOPER

**Self Learner**          **Present from 2024**

- Understanding how servers and databases work using Node.js, Express.js, and MongoDB.
- Practicing how to store and manage data in web applications.
- Learning to create APIs that help websites send and receive data.
- Exploring how front-end and back-end systems connect with each other.
- Working on small projects to improve problem-solving and technical skills.
- Learning about authentication and user management using JWT (JSON Web Tokens).
- Understanding how to secure and protect backend data using best practices.

# Work & Productivity

- Mentorship
- Adaptability
- Documentation
- Project Management
- Public Relations
- Teamwork & Collaboration
- Attention to Detail
- Time Management
- Effective Communication
- Operating and IT Tools
- Version Control Systems
- Analytical & Problem-Solving Skills

# Language

- English (Fluent)
- Urdu (Fluent)
- Pashto (Native)

# Education

## University of Malakand (UOM)

- **Bachelor of Science in Computer Science**
- **Duration: September 2021 – September 2025**
- **Grade: 3.44 CGPA**

## Government Postgraduate College Timergara

- **Intermediate in Pre-Engineering (XII)**
- **Duration: September 2019 – july 2021**
- **Grade: 73%**

## Government High School (TKS)

- **Matric in Science**
- **Duration: Apr 2016 – Apr 2018**
- **Grade: 85%**
