⚙ SKILLS

DATA ANALYTICS & PROCESSING

- **SQL: Querying, Joins, Aggregations, and Data Cleaning**

- **Data Analysis:** Python (Pandas, NumPy, Matplotlib, Seaborn)

- **Data Visualization:** Power BI, Excel (Pivot Tables, Charts, Dashboards)

- **Data Ingestion & Automation:** Apache NiFi

- **Data Engineering Foundations:** Databricks (Data Processing, ETL Pipelines)

PREVIOUS SKILLS

Web Development (MERN Stack)

- **Front-End:** HTML5, CSS3, JavaScript, React.js, Redux, Next.js

- **Back-End:** Node.js, Express.js

- **Database:** MongoDB

- **Frameworks & Libraries:** Bootstrap and Tailwind CSS

- **Version Control & Deployment:** Git, GitHub, Vercel, Render, Nitlify

Development & Debugging Tools

- VS Code, Chrome DevTools

- JSON & API Testing Tools (Postman)

👤 PROFESSIONAL SUMMARY

Analytical and detail-oriented **Data Analytics Intern at Systems Limited Islamabad**, passionate about transforming raw data into meaningful business insights and data-driven strategies. Currently building strong expertise in **data visualization, SQL, Python, PowerBI, NiFi, Databricks, and ETL workflows**, with a focus on applying analytical thinking to real-world business problems. Leveraging a prior background in **MERN Stack** development, I bring a blend of **technical depth and analytical creativity**, enabling me to bridge data, systems, and business goals effectively. Recognized for my problem-solving mindset, adaptability, and continuous learning, I am committed to advancing my expertise in **data analytics** and contributing to impactful data-driven solutions that support smarter decisions and measurable business growth.

💼 WORK EXPERIENCE

Data Analytics Intern (Systems Limited, Islamabad | Sep 2025 – Present)

- Assisting in data collection, transformation, and visualization for analytical tasks.

- Utilizing Python (Pandas, NumPy) for data cleaning, analysis, and automation.

- Gaining hands-on experience with Apache NiFi for data ingestion and Databricks for ETL workflows.

- Collaborating with senior data engineers and analysts to optimize data pipelines and workflows.

- Preparing analytical reports and insights to support data-driven decision-making.

Front-End Developer (Anees Software House | Aug 2022 – Jun 2023)

- Developed responsive and visually appealing projects using HTML, CSS, JavaScrip, and React.js.

- Improved website performance through optimization techniques and responsive design.

- Applied UI/UX principles to enhance user experience and accessibility.

- Utilized Tailwind CSS and Bootstrap for efficient and consistent styling.

Back-End Developer (Self-Learning Projects | May 2024 – Jun 2025)

- Built backend services using Node.js, Express.js, and MongoDB.

- Designed and tested RESTful APIs for smooth client–server communication.

- Implemented JWT-based authentication and backend security best practices.

- Explored data handling, database design, and API integration for academic and personal projects.

- Strengthened problem-solving and debugging abilities through hands-on coding practice.

Management Skills

- Stress Management
- Mentorship & Peer Guidance
- Planning & Task Prioritization
- Negotiation & Deal Closing
- Training & Knowledge Sharing
- Team Collaboration & Leadership

Personal Traits

- Reliability
- Punctuality
- Adaptability
- Problem-Solving
- Strong Work Ethic
- Attention to Detail
- Loyalty & Honesty
- Time Management
- Public Speaking & Communication

LANGUAGE

- English (Fluent)
- Urdu (Fluent)
- Pashto (Native)

REFERENCE

- Will be furnished on request

PROJECTS (Web Development)

College Management System (CMS - Web Application)

- Designed and developed a full-stack College Management System using the **MERN Stack**.
- Designed specifically for educational institutions offering intermediate-level programs (1st and 2nd Year).
- Included modules: user authentication, role-based access (admin, teachers, students, parents), assignments, attendance, fee management, exams, results, and reporting.
- Implemented **secure JWT authentication** and a responsive UI with **Tailwind CSS**.
- Optimized **MongoDB queries** for performance and scalability.

Online Garments Store (Web application)

- Built a full-stack e-commerce platform using **HTML, CSS, JavaScript, Node.js, Express.js**, and **SQL**.
- User-friendly interface for customers and an admin panel for managing products, users, and orders.
- Integrated **user authentication**, **dynamic routing**, and **shopping cart** features.
- Supported **order tracking** and full backend-database interaction.

React Portfolio Website

- Developed a responsive personal portfolio using **React.js** and **Tailwind CSS**.
- Showcased projects, skills, and achievements in a professional format.
- Integrated **smooth navigation**, **reusable components**, and modern **UI/UX principles**.
- Highlighted personal branding and front-end development expertise.

EDUCATION

- **Bachelor of Science in Computer Science**
- **University of Malakand (UOM)**
- Session: **Sep 2021 – Sep 2025**
- **CGPA: 3.5**
